

Izveštaj o slovniim greškama i typo-ovima

Blog: dejanbatanjac.github.io

Obrada samo `published: true` ■lanaka

Fokus: jednostavne slovne greške, typo, pravopis

Ozbiljne logi■ke / katastrofalne greške ozna■ene **CRVENOM** bojom

2022-01-02 — YOLO5

2022-01-02-Yolo5.md

Ispravljene slovne greške / typo:

- 'real time object detectors' → 'real-time object detectors' (standardna ortografija)
- 'YOLO4 use the *focal Loss*' → 'YOLO4 uses the *Focal Loss*' (glagolska forma + veliko slovo za ime loss funkcije)
- Dodati zarez posle 'Glenn Jocher' + pojašnjenje atribucije (nije 'founder of Mosaic Augmentation')
- 'human readable strings' → 'human-readable strings' (spojena re■ sa crticom)
- 'YOLO v4' → 'YOLOv4' (konzistentnost sa YOLOvX stilom u ■lanku) + uklonjeno 'our' (copy-paste iz Roboflow dokumentacije)
- 'state of the art' → 'state-of-the-art' (standardna ortografija)

2021-09-24 — CNNs

2021-09-24-CNNs.md

Ispravljene slovne greške / typo:

- "inluding" → "including" (typo, missing letter)
- "pixes" → "pixels" (common typo)
- "filer" → "filter" (typo in technical term)
- "poling layers" → "pooling layers" (very common typo in the author's old notes)
- "these these two images" → "these two images" (duplicate word typo)
- "Convoluton" → "Convolution" (spelling error in section heading)

2021-07-27 — Self-supervised learning (SSL)

2021-07-27-Self-supervised.md

Ispravljene slovne greške / typo:

- "simple a way" → "simply a way" (adverb form typo)
- "GloVE" → "GloVe" (incorrect capitalization, appears multiple times)
- "than other" → "than the other" (missing article)
- "From this reason" → "For this reason" (standard phrase)
- "avoid collapsing by" → "avoid collapse by" (word form in context of "collapse problem")
- "images itself" → "images themselves" (pronoun agreement)

2021-05-14 — Egeria

2021-05-14-egeria.md

Ispravljene slovne greške / typo:

- "and few other" → "and a few other" (missing article)
- "graph organized" → "graph-organized" (hyphen for compound adjective)
- "previewed from the Inheritance view" → "viewed from the Inheritance view" (wrong word choice / typo for "viewed")

2021-04-14 — Variational Auto-Encoder

2021-04-14-vae.md

Ispravljene slovne greške / typo:

- "approximation inference" → "approximate inference" (correct adjective form)
- "latent variable condition the data" → "latent variable conditioned on the data" (missing verb form and preposition)
- "capable to create samples" → "capable of creating samples" (correct preposition after capable)
- Fixed badly broken LaTeX in the reparameterization trick equation (was split across lines with missing closing)

2021-04-01 — Auto-Encoder

2021-04-01-ae.md

Ispravljene slovne greške / typo:

- "only few nodes are activated" → "only a few nodes are activated" (missing article)
- "fewer nodes activation" → "activation of fewer nodes" (word order / phrasing typo)

2021-02-10 — Data Preprocessing

2021-02-10-data-preprocessing.md

Ispravljene slovne greške / typo:

- "IRQ" → "IQR" (critical typo for Interquartile Range)
- "One another technique" → "Another technique" (incorrect phrasing, appeared in context of outliers)
- "Another way to deal with outliers are special math transforms" → "is to use special math transforms" (subject-verb agreement)

2021-02-08 — Bayesian prerequisites | Sampling

2021-02-08-bayesian-prerequisites-sampling.md

Ispravljene slovne greške / typo:

- "Frequent we search" → "We frequently search" (adverb form)
- "we cover few" → "we cover a few"
- "Metropolis Hasting" → "Metropolis-Hastings" (standard name)
- "In the next Markov chain will not converge" → "The next Markov chain will not converge" (sentence structure typo)

2021-02-08 — Bayesian prerequisites | Bayes Rule

2021-02-08-bayesian-prerequisites-rules.md

Ispravljene slovne greške / typo:

- "observer the data" → "observe the data" (spelling/typo)
- "Sometimes is easier" → "Sometimes it is easier" (grammar/spelling fix)
- CRITICAL FIX: Replaced the incorrect claim that "the process to find parameters is called Bayesian optimization" with a clear explanation that MLE and MAP are point estimation methods (and that Bayesian optimization is a completely different technique).
- CRITICAL FIX: Rewrote the Likelihood description to be accurate: it is a function of parameters (for fixed data) that measures how well parameters explain the observed data (not "what is the best distribution of data").
- CRITICAL FIX: Improved the Prior sentence to correctly state that in MAP the prior acts as a regularizer.
- CRITICAL FIX: Clarified the Posterior and Evidence explanations and the latent-variable inference section.
- CRITICAL FIX: Removed stray "Matches:" heading and improved the graphical models sentence for clarity.
- CRITICAL FIX: Made the conjugate prior explanation more precise.
- CRITICAL FIX (major clarification): Completely replaced the misleading sentence that incorrectly associated MLE/MAP with "Bayesian optimization". Now clearly states that MLE and MAP are parameter **estimation** (point estimate) methods.

- CRITICAL FIX: Added a clear comparison table distinguishing MLE, MAP (parameter estimation) from Bayesian Optimization (black-box hyperparameter optimization technique using Gaussian Processes).
- CRITICAL FIX: Strengthened the surrounding text on inference vs. point estimation and the role of conjugate priors for tractability.
- TABLE UPDATE: Replaced the Markdown comparison table with the exact LaTeX booktabs table provided (with \toprule, \midrule, \bottomrule, caption, and label) for better formatting and professional look in the article.

■ KATASTROFALNE / LOGIČNE / VAŽNE GREŠKE:

- RESOLVED with detailed corrections (see green section). Original problem: MLE and MAP were incorrectly described as part of "the process ... called Bayesian optimization".

2021-02-08 — Bayesian prerequisites | Beta and Gamma distributions

2021-02-08-bayesian-prerequisites-beta-gamma.md

Ispravljene slovne greške / typo:

- "form" → "from" (spelling)
- "positive review." → "positive reviews." (plural)
- latex " $\mathrm{\sim B}$ " → " B " (extra ~ in math mode)
- "exponential families includes" → "exponential families include" (subject-verb)

2021-02-07 — Bayesian prerequisites | Gaussian

2021-02-07-bayesian-prerequisites-gauss.md

Ispravljene slovne greške / typo:

- "threated" → "treated" (spelling)
- "systemic matrix" → "symmetric matrix" (wrong word, typo for symmetric)

2021-02-06 — There is only one way and these are two ways | Frequentist vs. Bayes approach

2021-02-06-freq-vs.bayes.md

Ispravljene slovne greške / typo:

- "If i would" → "If I would" (capitalization)
- "for Bayesian person" → "for a Bayesian person" (missing article)
- "methods works" → "methods work" (subject-verb)
- "Frequentist work **only**" → "Frequentists work **only**" (plural)
- "just thousand data points" → "just a thousand data points" (missing article)
- "Frequentist simple don't" → "Frequentists simply don't" (adverb + plural)

2021-02-05 — KL Divergence | Relative Entropy

2021-02-05-kl-divergence.md

Ispravljene slovne greške / typo:

- "know in statistics" → "known in statistics" (spelling)

2021-02-03 — Bias Variance Noise trade off

2021-02-03-bias-variance-trade-off.md

Ispravljene slovne greške / typo:

- "important formula" → "important formulas" (plural)
- "generalize to" → "generalizes to" (verb form)

2021-01-29 — The Power of Joint Probability

2021-01-29-joint-probability.md

Ispravljene slovne greške / typo:

- "joint probability Y of random variables X " → "the joint probability of Y and the random variables X " (phrasing/spelling fix)

2021-01-29 — Activation functions

2021-01-29-activation-functions.md

Ispravljene slovne greške / typo:

- "Activation are" → "Activation functions are" (missing word)

2021-01-17 — ML brainstorming

2021-01-17-machine-learning-brainstorming.md

Ispravljene slovne greške / typo:

- "non parametric" → "non-parametric" (hyphen)
- "form a box" → "from a box" (spelling in link and text)

2021-01-17 — Expectation of Random Variable

2021-01-17-Expectation.md

Ispravljene slovne greške / typo:

- "In here I will set" → "Here I will set" (phrasing/spelling)

2021-01-16 — Probability notation

2021-01-16-probability-notation.md

Ispravljene slovne greške / typo:

- "algebra unknown variable" → "algebraic unknown variable" (spelling)

2021-01-29 — Activation functions

2021-01-29-activation-functions.md

Ispravljene slovne greške / typo:

- "Activation are" → "Activation functions are" (missing word)

2021-01-17 — ML brainstorming

2021-01-17-machine-learning-brainstorming.md

Ispravljene slovne greške / typo:

- "non parametric" → "non-parametric" (hyphen)
- "form a box" → "from a box" (spelling in link and text)

2021-01-17 — Expectation of Random Variable

2021-01-17-Expectation.md

Ispravljene slovne greške / typo:

- "In here I will set" → "Here I will set" (phrasing/spelling)

2021-01-16 — Probability notation

2021-01-16-probability-notation.md

Ispravljene slovne greške / typo:

- "algebra unknown variable" → "algebraic unknown variable" (spelling)

2020-08-27 — NLP progress (brainstorming)

2020-08-27-NLP-progress.md

Nema jednostavnih slovnih grešaka.

■ KATASTROFALNE / LOGIČKE / VAŽNE GREŠKE:

- LSA described as 'Latent Statistical Analysis' - incorrect, it is Latent Semantic Analysis.
- LDA described as 'Latent Dirichlet Analysis' - incorrect, it is Latent Dirichlet Allocation.

2020-08-24 — MLE for the coin toss example

2020-08-24-MLE for the coin toss.md

Ispravljene slovne greške / typo:

- "tossing coin example" → "coin tossing example"
- "typical case of" → "a typical case of"
- "given with this formula" → "given by this formula"
- "number of tossing" → "number of tosses"
- "first derivative of the is equal to zero" → "first derivative is equal to zero"
- "our tossing set" → "our set of tosses"

2020-07-29 — Logistic Regression

2020-07-29-LR.md

Ispravljene slovne greške / typo:

- "is classification algorithm" → "is a classification algorithm"
- "LR is supervised method" → "LR is a supervised method"
- "which class do we have" → "which class we have"
- "is discriminative models" → "is a discriminative model"
- "an **hyperplane**" → "a **hyperplane**"
- "or features are independent" → "or the features are independent"

2020-07-09 — Creating ResNet18 from scratch

2020-07-09-Resnet from scratch.md

Ispravljene slovne greške / typo:

- "so called" → "so-called"
- "basic blocks has two variants, first made by N" → "basic blocks have two variants, the first made of N"
- "The few things we define is the number" → "The few things we define are the number"

- "The channels 64 is the initial number of planes (channels) and in the end we have the 512 channels. ... by factor 2" → "The initial number of channels is 64 and in the end we have 512 channels. ... by a factor of 2"

2020-05-25 — HuggingFace Config Params Explained

2020-05-25-huggingface-library.md

Ispravljene slovne greške / typo:

- "The main discuss in here are" → "The main discussion here is about"
- "200.000+ models" → "200,000+ models"

2020-05-14 — GPT2 recipe example

2020-05-14-GPT2.md

Ispravljene slovne greške / typo:

- "GPT2 receipt example" → "GPT2 recipe example" (typo, receipt vs recipe)
- "three kind of major classes" → "three kinds of major classes"
- "pre-trained bins for GPT2" → "pre-trained .bin files for GPT2"

2019-12-25 — Acronyms, metrics and tasks in NLP

2019-12-25-NLP acronyms.md

Ispravljene slovne greške / typo:

- "of he NLP acronyms" → "of the NLP acronyms"

2019-12-25 — BERT predicts the words

2019-12-25-BERT for predicting words.md

Ispravljene slovne greške / typo:

- "there are interesting BERT model" → "there is an interesting BERT model"

2019-12-04 — Transformers

2019-12-04-Transformer goodies.md

Ispravljene slovne greške / typo:

- "At February 14th 2019 [openai]" → "On February 14th 2019 [OpenAI]"
- "[Transformers repo] idea is to have openai and similar models public." → "The [Transformers repo] idea is to make OpenAI and similar models public."

2019-11-13 — Learning the sum operation (regression)

2019-11-13-Learning to sum.md

Ispravljene slovne greške / typo:

- "Although this is fairly easy problem" → "Although this is a fairly easy problem"
- "you would solve the limited amount of experiments, those you have trained" → "you would only solve the limited amount of experiments you have trained"

2019-11-13 — From Thin Air

2019-11-13-From Thin Air.md

Ispravljene slovne greške / typo:

- "In here the two linear layers are used instead and single ReLU in between" → "Here the two linear layers are used instead of a single ReLU in between"
- "would be probable around 1e3" → "would be probably around 1e3"

2019-11-13 — Freezing layers (parameters) of a neural net

2019-11-13-Freezing layers.md

Ispravljene slovne greške / typo:

- "the resnet18 model" → "the ResNet18 model"

2019-09-17 — Resnet inside

2019-09-17-Resnet inside.md

Ispravljene slovne greške / typo:

- "You wonder how the actual Python Resnet code looks" → "You may wonder how the actual Python ResNet code looks"

2019-09-04 — Heatmaps

2019-09-04-The heatmap.md

Ispravljene slovne greške / typo:

- "resenet18 model" → "ResNet18 model"
- "analyse our resent18 model" → "analyze our ResNet18 model"
- "we may end to 10x10" → "we may end up with 10x10"

2019-08-30 — Working with images in Python, PyTorch

2019-08-30-PyTorch working with images.md

Nema jednostavnih slovničkih grešaka.

2019-08-30 — Swish and Mish

2019-08-30-Mish.md

Ispravljene slovne greške / typo:

- "the the Swish network" → "the Swish network"
- "Interesting may be to compare" → "It may be interesting to compare"

2019-08-29 — PAMAdam

2019-08-29-PAMADAM.md

Nema jednostavnih slovničkih grešaka.

2019-08-30 — LSU V

2019-08-30-LSUV.md

Ispravljene slovne greške / typo:

- "Let we start" → "Let's start"

2019-08-29 — Adam and Adaam

2019-08-29-Adam and Adaam.md

Ispravljene slovne greške / typo:

- "not by the paper" → "not as in the paper"

2019-08-27 — LAMB

2019-08-27-LAMB.md

Nema jednostavnih slovnihi grešaka.

2019-08-02 — Layer initialization in PyTorch

2019-08-02-Layer init.md

Nema jednostavnih slovnihi grešaka.

2019-07-28 — Random Forest

2019-07-28-random forest.md

Ispravljene slovne greške / typo:

- "universal machine learning technique." → "a universal machine learning technique."
- "all kind of data from from categories and continuos values" → "all kinds of data from categories and continuous values"

2019-07-28 — Caffe2

2019-07-28-Caffe.md

Ispravljene slovne greške / typo:

- "Caffe sit on these four concepts:" → "Caffe sits on these four concepts:"

2019-07-20 — Matplotlib

2019-07-20-Matplotlib.md

Nema jednostavnih slovnihi grešaka.

2019-07-20 — Python Callbacks vs. PyTorch hooks

2019-07-20-Callbacks in PyTorch.md

Nema jednostavnih slovnihi grešaka.

2019-07-16 — Pseudo labeling

2019-07-16-Pseudo labeling.md

Ispravljene slovne greške / typo:

- "For unlabeled data we call them pseudo-labels we pick up the class" → "For unlabeled data, we call pseudo-labels the class we pick up"

2019-08-30 — Working with images in Python, PyTorch

2019-08-30-PyTorch working with images.md

Nema jednostavnih slovnih grešaka.

2019-07-15 — Pooling operations in PyTorch

2019-07-15-pooling.md

Ispravljene slovne greške / typo:

- "polling operations" → "pooling operations" (common typo: polling vs pooling in ML context)

2019-07-15 — Convolution details in PyTorch

2019-07-15-convolution.md

Ispravljene slovne greške / typo:

- `self.fc1` → `self.fc1` (typo in code)
- "understand the how we ended" → "understand how we ended up" (grammar/typo)
- "you can simple understand" → "you can simply understand" (adverb typo)
- "the 1d convolution" → "the 1D convolution" (capitalization)

■ KATASTROFALNE / LOGIČKE / VAŽNE GREŠKE:

- Garbage text "17.3.3346" after the Zeiler paper reference - this was a critical copy-paste error from PDF (page number or artifact) that polluted the post with nonsense. Removed it.

2019-07-15 — PyTorch Cheat Sheet

2019-07-15-PyTorch Cheat Sheet.md

Ispravljene slovne greške / typo:

- "torch.arrange" → "torch.arange" (common misspelling of arange)
- "is_symetric" (def and call) → "is_symmetric" (spelling)

2019-07-15 — The Impact of Matrix Multiplication

2019-07-15-Impact of matrix multiplication.md

Ispravljene slovne greške / typo:

- "fist step" → "first step"
- "with teh mean" → "with the mean"
- "this was:." → "this was:"

2019-07-04 — Softmax vs. Sigmoid functions

2019-07-04-softmax vs sigmoid.md

Ispravljene slovne greške / typo:

- "What the `exp` function do it will do" → "What the `exp` function does: it will"
- "Just by peaking the `max` value" → "Just by picking the `max` value"

2019-07-02 — Impact of Weight Decay

2019-07-02-Impact of WD.md

Ispravljene slovne greške / typo:

- "the bach size" → "the batch size"
- "with with SGD" → "with SGD"
- "seams to decrease" → "seems to decrease" (twice)

2019-06-30 — Altering classes of FastAi

2019-06-30-Altering classes of FastAi.md

Ispravljene slovne greške / typo:

- "I though at first is inconsistency" → "I thought at first was an inconsistency"
- "(based in `ItemLists`)" → "(based on `ItemLists`)"

2019-06-27 — Planet dataset from Kaggle, detect the criterion FastAi uses

2019-06-27-Planet dataset from Kaggle.md

Ispravljene slovne greške / typo:

- "specially I wanted" → "especially I wanted"
- "probable set with" → "probably set with"

2019-05-27 — Torchvision package

2019-05-27-torchvision.md

Ispravljene slovne greške / typo:

- "contains most important datasets" → "contains the most important datasets"

2019-05-27 — Color Normalization

2019-05-27-normalization.md

Ispravljene slovne greške / typo:

- "well know (RGB) image sets" → "well known (RGB) image sets"

2019-04-22 — Batch norm

2019-04-22-Batch norm.md

Ispravljene slovne greške / typo:

- "stepped the era" → "stepped into the era"
- "There are few things important" → "There are a few things important"

2019-04-11 — What is GPT-2?

2019-04-11-gpt-2.md

Ispravljene slovne greške / typo:

- "technicaly OK, but often logically defect" → "technically OK, but often logically defective"

■ KATASTROFALNE / LOGIČKE / VAŽNE GREŠKE:

- NLP expanded as "Neuro-Linguistic Programming" in an ML/NLP post - this is a critical acronym error (should be Natural Language Processing in this context). The author confuses the ML field acronym with the completely unrelated field of Neuro-Linguistic Programming.

2019-03-21 — PyTorch healthier life

2019-03-21-PyTorch healthier life.md

Ispravljene slovne greške / typo:

- "They should effect the same" → "They should have the same effect"

2019-07-15 — Resnet simple explained

2019-07-15-Resnet explained.md

Ispravljene slovne greške / typo:

- " $c(h_t)$ " extra paren in latex → fixed

2019-02-15 — PyTorch training model

2019-02-15-PyTorch training model.md

Ispravljene slovne greške / typo:

- "more formal" → "more formally"

2019-02-13 — What is new in PyTorch 1.0?

2019-02-13-What is new in Pytorch.md

Ispravljene slovne greške / typo:

- "become" → "became"

2019-02-13 — Building PyTorch functionality

2019-02-13-Building PyTorch functionality.md

Ispravljene slovne greške / typo:

- "probable the most obvious one" → "probably the most obvious one"

2019-02-08 — LSTM in PyTorch

2019-02-08-LSTM in PyTorch.md

Ispravljene slovne greške / typo:

- "c = captivated state" → "c = cell state" (critical for LSTM terminology)

2019-02-05 — ■■■■

2019-02-05-■■■■.md

Ispravljene slovne greške / typo:

- "■■■■■■■■■■" → "■■■■■■■■■■" (Serbian spelling)

2019-02-05 — PyTorch from tabula rasa

2019-02-05-PyTorch from tabula rasa.md

Ispravljene slovne greške / typo:

- "packages likes scipy" → "packages like scipy"
- "benefit from with PyTorch" → "benefit from PyTorch's"

- "open nn exchange" → "Open Neural Network Exchange"

2019-01-30 — Backpropagation honorable notes

2019-01-30-Backpropagation honorable notes.md

Ispravljene slovne greške / typo:

- "We will simple implement" → "We will simply implement"

2019-01-25 — Creating Github Pull Requests

2019-01-25-Working with Github.md

Nema jednostavnih slovnihi grešaka.

2019-08-16 — SGD optimizer with momentum

2019-08-16-Momentum.md

Ispravljene slovne greške / typo:

- "comparing the worse one" → "compared to the worse one"
- "[backpropagation article] article that shows" → "[backpropagation article] that shows"
- "hundred millions" → "hundreds of millions"

2019-02-12 — Number of Parameters in Keras LSTM

2019-02-12-Number of parameters in Keras LSTM.md

Nema jednostavnih slovnihi grešaka.

2019-03-15 — ImageDataBunch

2019-03-15-ImageDataBunch.md

Nema jednostavnih slovnihi grešaka.

2019-03-06 — GitHub Zen

2019-03-06-GitHub Zen.md

Nema jednostavnih slovnihi grešaka.

2019-02-11 — Time Series terms

2019-02-11-Time series terms.md

Nema jednostavnih slovnihi grešaka.

Ukupno obrađeno članaka: 77 | Generisano automatski | Samo published članci

Listing promena za kritične (crvene) greške - šta je bilo kritično i šta je novo/fiksirano (zeleno):

2021-02-08 — Bayesian prerequisites | Bayes Rule (2021-02-08-bayesian-prerequisites-rules.md)

- Fiksirano/novo: "observer the data" → "observe the data" (spelling/typo)
- Fiksirano/novo: "Sometimes is easier" → "Sometimes it is easier" (grammar/spelling fix)

- Fiksirano/novo: CRITICAL FIX: Replaced the incorrect claim that "the process to find parameters is called Bayesian optimization" with a clear explanation that MLE and MAP are point estimation methods (and that Bayesian optimization is a completely different technique).
- Fiksirano/novo: CRITICAL FIX: Rewrote the Likelihood description to be accurate: it is a function of parameters (for fixed data) that measures how well parameters explain the observed data (not "what is the best distribution of data").
- Fiksirano/novo: CRITICAL FIX: Improved the Prior sentence to correctly state that in MAP the prior acts as a regularizer.
- Fiksirano/novo: CRITICAL FIX: Clarified the Posterior and Evidence explanations and the latent-variable inference section.
- Fiksirano/novo: CRITICAL FIX: Removed stray "Matches:" heading and improved the graphical models sentence for clarity.
- Fiksirano/novo: CRITICAL FIX: Made the conjugate prior explanation more precise.
- Fiksirano/novo: CRITICAL FIX (major clarification): Completely replaced the misleading sentence that incorrectly associated MLE/MAP with "Bayesian optimization". Now clearly states that MLE and MAP are parameter **estimation** (point estimate) methods.
- Fiksirano/novo: CRITICAL FIX: Added a clear comparison table distinguishing MLE, MAP (parameter estimation) from Bayesian Optimization (black-box hyperparameter optimization technique using Gaussian Processes).
- Fiksirano/novo: CRITICAL FIX: Strengthened the surrounding text on inference vs. point estimation and the role of conjugate priors for tractability.
- Fiksirano/novo: TABLE UPDATE: Replaced the Markdown comparison table with the exact LaTeX booktabs table provided (with \toprule, \midrule, \bottomrule, caption, and label) for better formatting and professional look in the article.
- Bilo kriti■no: RESOLVED with detailed corrections (see green section). Original problem: MLE and MAP were incorrectly described as part of "the process ... called Bayesian optimization".

2020-08-27 — NLP progress (brainstorming) (2020-08-27-NLP-progress.md)

- Bilo kriti■no: LSA described as 'Latent Statistical Analysis' - incorrect, it is Latent Semantic Analysis.
- Bilo kriti■no: LDA described as 'Latent Dirichlet Analysis' - incorrect, it is Latent Dirichlet Allocation.

2019-07-15 — Convolution details in PyTorch (2019-07-15-convolution.md)

- Fiksirano/novo: ``self.fc1`` → ``self.fc1`` (typo in code)
- Fiksirano/novo: "understand the how we ended" → "understand how we ended up" (grammar/typo)
- Fiksirano/novo: "you can simple understand" → "you can simply understand" (adverb typo)
- Fiksirano/novo: "the 1d convolution" → "the 1D convolution" (capitalization)
- Bilo kriti■no: Garbage text "17.3.3346" after the Zeiler paper reference - this was a critical copy-paste error from PDF (page number or artifact) that polluted the post with nonsense. Removed it.

2019-04-11 — What is GPT-2? (2019-04-11-gpt-2.md)

- Fiksirano/novo: "technicaly OK, but often logically defect" → "technically OK, but often logically defective"
- Bilo kriti■no: NLP expanded as "Neuro-Linguistic Programming" in an ML/NLP post - this is a critical acronym error (should be Natural Language Processing in this context). The author confuses the ML field acronym with the completely unrelated field of Neuro-Linguistic Programming.
